**REPUBLICANS POINT TO ELECTION OF '20 AS PEOPLE'S VOICE**

"CLEANING" ORDERED AND THAT'S WHY OFFICIALS WERE DISCHARGED.

**TO BE NO KICK**  
Democrats Lose in Effort to Investigate Printing Office Removals.

By DAVID LAWRENCE.

Washington.—There's no longer any secret about the reason for the abrupt dismissal of a score of bureau chiefs and employees of the bureau of printing and engraving, despite their status under the civil service.

One influential member of the cabinet when asked what brought about the upheaval has just told inquiries that they would be examining closely the vote of the last presidential election they would discover the answer.

As for the impression that irregularities occurred in the bureau so serious

as to require summary removal of many of trusted employees, the record now has been cleared by a statement from President Harding to the effect that no charges were filed against dismissed employees.

The administration according to its leading spokesman, was commanded by the last election to "clean house."

It has been too busy dealing as quickly with larger problems of government to attend to personnel before this. One year has gone by and the faithful in the party ranks are reminding the administration through members of congress daily that the personnel question must be neglected no longer.

"Cleaning House."

Cabinet officers justify their action in removing even those covered under civil service by the argument that

Concordia, Kan.—L. H. Tremblay, a farmer living near St. Joseph, this county, five of whose sons were hacked with an ax, early Tuesday, resulting in the death of one of them and the probable fatal injury of three others, was found dead at the home of a neighbor early Friday.

Exports from the state prison Thursday night put Tremblay through a severe grilling in connection with the crime.

Los Angeles—Herbert S. Hookin, under arrest here on a charge of having tried to influence veniremen in the second trial of Arthur C. Burch for the murder of J. Belton Kennedy, is said by court attaches to be the same Herbert S. Hookin who, with 28 other men, was convicted at Indianapolis for conspiracy to ship explosive devices used on passenger trains seven years ago.

Hookin was sentenced to six years in the federal prison at Leavenworth and was released in June, 1917, after completing his term.

Prior to 1910, he was secretary-treasurer of the International Association of Building and Structural Iron Workers and lived in Detroit.

Hookin, an operative of a private detective agency employed by the district attorney, failed to investigate the witness from which the jurors in Mr. Burch's trial were to be selected, declined to discuss his past life. He remained in the county jail Friday trying to raise \$2,000 bail, which would give him freedom pending his preliminary examination April 13.

## Room for Rent

Did you ever notice one of those signs stuck up in a window or some of the houses along the road? It tries to do its work, but so little good does it do for the people it talks to. It is not to be wondered it stays there week after week, rarely getting the party wanted and usually not getting one at all.

Leading Edgerton Man Succumbs in Hospital at Chicago.

Thomas E. Earle, 61, head of the Earle tobacco warehouse, of Edgerton, and widely known throughout Southern Wisconsin, died at the Augustana hospital, Chicago, at 9 p.m. Thursday. Mr. Earle went to the hospital early in the week to undergo a serious operation for stomach trouble, but his condition was so weak that he decided to leave the hospital. In the hope of helping him a blood transfusion was resorted to on Monday and Tuesday, but he died without the operation having been performed.

Mr. Earle was a lifelong resident of Rock county and spent his entire life in the tobacco business. He comes of a long line of Scotch ancestors, his mother and father, John and Margaret Earle having come to America from Scotland, settling in the town of Porter, where he was born Oct. 12, 1857. They later moved to Edgerton where he had since lived.

Mrs. Earle, his wife, and his son, David, survived him. His wife stopped at the Palms cafe at the Mission City for lunch.

Earle went to the dressing room and a few minutes later returned to the main dining room, causing a furor of excitement in telling of the disappearance of the jewels.

Dropping into a chair, the singer collapsed in an unbroken convulsion and told of having placed the jewel case on a table while she was washing her hands.

Describes Two Girls

The report stated the jewel case contained a solitaire diamond ring, platinum set with a large gem, valued at several thousand dollars; a diamond bracelet set with 10 gems each stone weighing two and one-half carats, and numerous ornaments prized by the singer. She is the gift of royal families of Europe.

Earle lies in a critical condition at his home in Edgerton, with two nurses in attendance.

Besides his wife and son, Mr. Earle is survived by four brothers and four sisters: David, Perth, S. D., James, Harold, S. D., John, Franklin, Robert, George; Mrs. J. A. Hart, Mrs. Miller, Mrs. Agnes Robertson, Cookstown; Mrs. Belle Walker and Mrs. N. E. Nelson of Edgerton.

The body will be taken to Edgerton Friday, arriving at 7 p.m. The funeral probably will be held Monday.

**GENOA ALL DOLLED UP FOR CONFERENCE**

Genoa—Turpentine is in the air everywhere along the Italian Riviera, from Genoa to Rapallo. Its odor even dominates the perfume of the spring flowers and fruit blossoms.

Genoa and its environs have been given a bath of fresh paint in preparation for the opening of the economic conference Monday. The Russian Soviet delegates got together with the winter visitors, who painted the imperial hotel and the foreigners in all the neighboring resorts, as well as in Genoa, are hunting the dry cleaners.

Warnings of "fresh paint" printed in Italian afford little protection to the polyglot crowd assembled for the conference.

County-wide testing of cattle for tuberculosis was discussed during a Bureau meeting in Milton Junction Thursday. The farmers attending also considered obtaining a lime stone crusher for the district.

**10 Acres, Buildings and Trees Moving Down Hill**

By ASSOCIATED PRESS.

Los Angeles—A landslide about 10 acres in area is moving down the mountain side near the head of Topanga canyon, about 20 miles from here. During the night the mass of earth had moved 600 feet from its original position and the few buildings, fences, trees and a section of a scenic highway on it all were reported moving with it, with no change in their relative positions.

What force loosened the mountain side could only be conjectured, but its movement was reported to have begun almost immediately after a heavy truck had passed over that part of the highway.

ANTHRACITE OPERATORS DECLINE TO MEET MINERS

**UNIONS ARE BUSY**

Organization Work Spreading; Claims Differ As to Number Out.

By ASSOCIATED PRESS.

Wage negotiations in New York cannot end the strike in anthracite fields of Pennsylvania for at least another month and prospects of peace in the bituminous field are dim, through almost unanimous refusal of operators to confer with the miners in Washington on Monday.

International President Lewis of the miners is in New York to hasten the anthracite negotiations, but the miners' sole committee and operators' committee agree their scheduled date of discussions must consume another four weeks.

Meanwhile the 135,000 striking anthracite miners are vacantly employed—traditionally developing big tongue-hoschell gardens, planting, tending garden or in the case of the less fortunate, seeking temporary employment.

Operators Stand Pat

Operators of the Central bituminous field stand pat in their refusal to accept the house labor committee invitation to a conference with the miners Monday, despite intimation from Attorney General Daugherty that the mine owners would face no prosecution under the anti-trust laws if they again saw fit to fix wages on the basis of a central field agreement.

**ELKHORN**

Elkhorn—A child welfare meeting was held in the court house Friday. It is in charge of Dr. Elizabeth Woods and Dr. Millicent Waterhouse, of Madison.

### To Assessors Meeting

Walworth county assessors will meet in the court house April 25 for the annual meeting. The meeting will be under the direction of Chas. A. Williams, assessors of incomes. Matters of general interest will be discussed and instructions given on the intricate parts of the law.

### Held P. T. Meeting

The regular meeting of the Parent-Teacher association will be held in the school house Friday evening. The Elkhorn male quartette will furnish the music.

### Personals

Fred Hemingway, Delavan, is dangerously ill. He is at the county hospital.

### Chas. Lenno, Jr. and Agnes Hobson, of Lake Geneva have applied to the County Clerk for a marriage license.

Mrs. M. J. Carlton, Melton Heights, entertained a large company of friends Wednesday night, in honor of Mrs. Harold DeBary, Chicago, who is visiting in Elkhorn. Mrs. DeBary leaves for Chicago, Saturday, and will soon go to California to live.

Elkhorn singers will present a cantata in the Congregational church Easter Sunday evening. They will give the same entertainment in Delavan the week following.

Mrs. Theodosia Roberts, Fargo, N. D. is visiting her mother and other Elkhorn friends for a few days.

James Stokes, manager of the Wisconsin Drainage Co., returned from Kentucky, Wednesday, where his firm is just completing three large ditching contracts.

The Methodist church will receive 30 new members next Sunday and the week following.

The date for the appearance of the Masonic Minstrels has been changed to April 28 and 29 in order to accommodate some of those who are to have a part in the entertainment. Rehearsals indicate that the show will be the best the society has ever presented.

### WHITEWATER

Whitewater—Curtis Sherman passed away Sunday morning at his home at Utters' Corners. He was 84 years old. Mr. Sherman lived with his son, Roy, and family in the old home. One daughter, Edna Sherman Bloxham, also survives him. Mr. Sherman had been a contributor of notes to Whitewater newspaper for a number of years. Funeral services and burial were held Wednesday at Utters' Corners in the church of which he was an active member. There will be services at the Methodist church every evening next week except Saturday. Mrs. Susan Taylor and daughter Edna were called Wednesday to Oak Park, Ill., by the death of Mrs. Taylor's son-in-law, Fred Freer. Mr. Freer had suffered from a nervous breakdown and for several weeks had been having treatment. Postmortem developed and caused his death. Mr. Freer was employed as conductor on the Northwestern railroad. He was about 45 years of age. He leaves a wife, Bess Taylor Freer.

Mrs. A. H. Tubbs entertained at a dinner Sunday in honor of Miss Emily Hamon, who teaches at Wausau and is spending her spring vacation at home.—Genovile Fahey of St. Louis Falls, S. D., is here to spend a week with her parents, Mr. and Mrs. Edna Fahey. The monthly meeting of the Congregational church Men's club occurred Thursday evening, with a supper at 6:30.—The Mothers' club met Thursday afternoon at Mrs. Harlow Smith's on North Prairie street. Daughters of the King met Thursday afternoon with Mrs. J. Brandon. The young people of St. Luke's church have a social hour every Sunday afternoon at 5:30 at Grotto hall. Refreshments are served.

The annual spring concert will be given at the Auditorium Friday evening. Mrs. Ade Fleischer of Milwaukee, who did preliminary work for a Pythian Sister Auxiliary here last week, will meet with candidates at Pythian hall Friday evening.

**Krielow on Way to Cleveland**

Walter Krielow, 32, arrested here Tuesday on a federal warrant charging receiving stolen property from interstate freight shipments, later taken to Madison, waived preliminary examination there before United States Court Commissioner C. E. Blake. Krielow was then taken to Superior by Deputy Marshal William Touton, where Judge Claude Laseau set aside his bail for removal to Cleveland. It was expected that Marshal Touton would take him to that city on Friday.

### SHURTLIFF'S Saturday and Sunday Brick Special

## PECAN ROLL DEALERS EVERYWHERE

## Sen. La Follette and Wisconsin

(Continued from Page 1.)

in your community. What was the first requirement for their success? Was it not credit? Is not the first fundamental of credit honesty? How can in business can the dishonest man get? Who wants any dealings with him? So much for the statement that all business men are crooks. There are, of course, exceptions to every rule, but I am sure the percentage of honest men in business will compare favorably with those in politics.

### LaFollette Doctrine

Take his other doctrine, the business men giving their profits out of the losses of other classes. Do business men profit at the expense of people of other classes with whom they deal? They do not. As a business man or a farmer, when are you most prosperous? Is it not when business is good? When are wages highest and the demand for farm products best? Is it not when business men are enjoying prosperity? When the buying power of the farmer is low, does not every business suffer? Profits for business men come not at the expense of any class. Still LaFollette's main stock in trade has been this campaign against the industry of the state. A campaign that has now become a thrust at the prosperity of every citizen of the state, and he gets away with it, for his own personal perpetuation in power.

### Newberry a Picker

Newberry would like to be a picker if he could see the cost of LaFollette's early military support. His machine's share of the \$40,000 non-comparision League membership, and the 200% increase in cost of state government while he was political boss.

So much for some of his mere political inconsistencies. His studied attack on the fundamental policies and proven precepts of our great American nation is a matter of much more serious import.

This has been the end of opportunity, the end of free-thinking men over all the world who came here because of opportunities offered and our professed government as Lincoln put it "of the people, by the people, for the people" not of a class by a class, and for a class, or for any particular nationality. This has been called the great melting pot of all nationalities and classes and perfect that in mind. LaFollette operates more rapidly in the processes has been the end of every great American since Washington. LaFollette's great effort. In recent years, his main stock in trade in his desperate search for causes of discontent to capitalize for his own benefit. And been the appeal to classes to array one against the other, by naming acts their grievances, by questioning acts and motives of others.

### One Effect of Legislation

His single plan of labor legislation has been, for many years in the Senate to LaFollette's scheme to design to catch the Labor vote, but utterly without constructive benefit for the working men of the country, but which now makes necessary the passage of ship subsidy or other assisting measure so that our farm and factories may find an outlet for their products abroad by having their own delivery wagon system.

LaFollette has suffered more from poor leadership than anything else. At least in his alignment with men of the LaFollette type that encourages these leaders, to unreasonable requests, which forfeit their right to the support of public opinion without which there is no success. By his encouragement of such radical policies, he is injuring labor cause by forfeiting public opinion and obstructing really beneficial policies. His appeal to the former class was in the form of the Nonpartisan, a non-viable theory that would rapidly bring our country to the chaos of Russia if applied by the breakdown of the industrial and financial arteries which carry the lifeblood of our standard of civilization. LaFollette I believe, is too intelligent not to know this, but he was willing to approach this result simply as a vote getting adaption to the farmers. In a time of bewilderment and distress during price inflation after the war.

### Opposes Farm Bureau

Conservative farm work, such as carried out by the Farm Bureau's representatives at Washington, bodes no good for his farmer political support, and he was quick to attempt to discredit the work of the Farm Bureau in negotiating a reduction of freight rates. The creation roads by impairing dishonesty to the motives of President Harding in sitting down with the railroad executives so that honest men should to find a way out of their mutual difficulties.

The clearness of this political trick shows the depth to which LaFollette has sunk in his appeal to classes.

### Blending of Peoples

One of the big problems of our national melting pot is the blending of different nationalities into a homogeneous American nation. LaFollette's entire efforts are directed against this Americanization process. He desires nationalities to be distinct in the state so that, by applying to their nationality grievances, he may develop political support. Wisconsin has a large population of German origin and the reputation of the German-American people of the state is at stake and will be judged by their attitude toward LaFollette politically. The whole effect of his St. Paul speech was to weaken and undermine the support which the nation owed to the boys in France. As a political play to the German people of the state, it is an insult to every man of German blood.

It was natural when war first

broke out in Europe that the people of German blood should sympathize with their kinsmen.

## Tuberculosis Clinic in Janesville

## MILLIONS DIE OF "FLU" IN INDIA

Native of Country Tells of Distressing Conditions in Speech Here.

While America became almost panic-stricken with the loss of several hundred thousand lives by influenza in 1918, India lost more than 7,000,000 lives from that disease alone, said Victor M. Ilahibaksh in an address to 40 men and women at the Y. M. C. A. Thursday night.

"And that's not all," he said, "was only the official count. If all the deaths from influenza that year in all of India had been recorded, the count would have been well over 10,000,000."

The unsanitary condition of even the smallest villages is accountable for this terrible loss of life, he said.

"When you are a mile from the village you can tell how bad it is without going there," he stated.

Mr. Ilahibaksh is a native of India, and although very swarthy in the face, his education in this country has removed all accent from his speech, and he uses perfect grammatical English. He is connected with the agricultural department of the Y. M. C. A. in his native country.

2 Per Cent of People Poor.

India has had Christian missions for 100 years, but it is still an "Mission country," he continued. "This is because you cannot preach religion to those people of the lower classes—82 per cent of the population—when they have all they can do to live. The first thing to do is to better the living conditions and to teach those ignorant people how to use their hands and implements in order to increase their income."

"As the average income of each native of the northern part of India is less than 25 cents a day, and the agriculturist is paid only \$1.25 per year, they are unable to buy modern American farming implements. So we teach them how to use the implements they have, and how to care for the soil. Our department always tries to work with the missionary department so that while we are teaching agriculture, other Y. M. C. A. men are teaching religion. The Y. M. C. A. believes that the body should be strong, and soul healthy. The result is a brute if only the soul is religious."

India's Soil Is Rich.

Mr. Ilahibaksh told of the good agricultural conditions in India, where the stubble is turned over and because of the intense heat and great quantities of water turns to humus between seasons. In America, this process takes three or four years.

"Under the present price schedule people should use more milk than ever. The fact that Janesville people and in the trade district use more milk products, including ice cream, goes to help cut the farmers in the period each year."

Lower prices are quoted on cream by the Cronin company.

## Schieffell Jury Chosen; Inquest Testimony Read

(By Staff Correspondent)

Lancaster—Selection of a jury, composed mostly of farmers and reading into the minutes of 300 pages of testimony taken at the inquest, featured the opening session Friday morning at the trial of John and William Schieffel for the murder of Joseph Stark on Dec. 9, near the Grant County line.

The jury chosen from the pool jury of the regular term, with one exception follows:

enjamin Glasson, Hazel Green; George Gill, Cuba City; Frank Ginter, Paris; John Harrower, Mount Horeb; Charles Lange, Paris; Leo Los, Custer; Jay Murley, Waukesha; Henry McClain, Pleasant Hill; H. Richards, Fitchburg; W. Schuppener, Fennimore; Anthony Schmidt, Ellensburg; and Nick Juncles, Sinclair. Twenty men were summoned late Thursday to appear in even a jury could not be selected from the regular panel.

Admission of the inquest testimony was held a blow to the defense, as John Schieffel admitted in testimony at the inquest that Stark came to his death in a fight with him.

A. S. Flagg was in Janesville on business Friday.

A. E. Garey was a Milton visitor Friday.

Mary Marion Cox, who is ill in Mercy hospital, was too ill to have a blood examination Thursday. An examination was to be made Friday to determine whether or not to have another blood transfusion.

Burton E. Johnson, Chicago, spoke before the high school assembly Friday at 11:30 on "Principles Involved in Seeking Your Life's Work." He said, in part: "Our life work should bring us satisfaction and happiness. There are some phases of work that should be foremost, namely: Satisfaction, happiness, achievements and, least in importance, a large salary. Satisfaction and happiness come through service to our fellow men. To give the best of service it is necessary to have a good education."

Paul Curran, Robert Bardean, Stewart Brack, Leland and Raymond Dragoz attended the chest clinic in Janesville Thursday.

Glen Gardner, one of Janesville's new aldermen, is a former Edgerton boy. He graduated from Edgerton high school in 1914, being prominent in school activities.

## Sorenson Wins in Oratorical Meet at J.H.S.

Ervin Sorenson will be presented the Oratorical medal later in the spring, when the other medals are awarded, having won first place in the oratorical contest held at the high school Thursday night. He and Arthur Schultz, who came second, will represent Janesville at the Beloit-Janesville contest later. The winner of this contest will compete later in Whitewater for the state contest.

Prin. George Bassford acted as chairman of the contest Thursday night. Judges were Floyd Reyner, Super. J. M. Dorans of the vocational school, and Miss Florence Babcock, of the faculty.

Music was furnished by Miss Bella Sorenson with a vocal solo and Miss Jessie Vincer with two violin solos.

**ONLY TEN PEOPLE GUessed THIS RIGHT**

Out of the 500 entries in the Shurtliff Mystery Ice Cream brick contest held this week, but 10 people guessed the correct three flavors, which were chocolate, cocoanut and orange-pineapple. It was announced at the company's office Friday morning. Adam Fulton, Milton Johnson, winner of the first prize of five dollars, while Gladys Steverson and Mrs. H. Thom won second and third place, prizes of \$3 and \$2 respectively.

The other seven winners awarded a quart brick of ice-cream are Keith Bolton, W. A. Dilley, Harvard, Ill. Mrs. J. M. Comford, Miss Mary Ann Boswick, Miss Irma Minnick, Mrs. James Sterns and Mrs. D. Krueger.

**FARM BUREAU PUTS ON SEWING EXHIBIT**

Mrs. Sadie McNulty, University of Wisconsin, gave a sewing machine demonstration at the home of Mrs. James Caldwell, Harmony, Thursday afternoon. Fifteen women attended. Dress forms were completed. Miss McNulty, sent out by the Farm Bureau, will give an address at Harmony town hall, Friday night.

**LEGION BALL TO BE STRICTLY MILITARY**

Military uniforms will be taken out of storage April 20 by members of the Richard Ellis Janesville post for the American Legion ball to be held at the Legion hall of the post to be held next month. Invitations are being sent out by the legion. A number of novelties will be introduced. The ball will open with a grand march and it is possible some high military officials will be present to lead. Decorations are being designed by Harry K. MacMinn, Thompson's first orchestra, Madison, as first announced while William J. Lennartz's majority over Miss M. J. Edwards was 2,367 instead of 2,370.

The canvas shows Bruce Jeffries received 174 votes for justice of the peace while Frank Fraunfelder was second with 56.

In connection with the recount of the Fourth ward ballots for alderman, J. G. McWilliams wants the public to understand he is not acting as W. H. Hilt's attorney in the case. He says he merely drew up the papers for service and that does not entitle him to the association with the circuit court for Mr. Hilt.

The official canvass and a recount differ in that on the former, only the returns of the election inspectors are canvassed. City Clerk E. J. Sartell explained Friday. On a recount, the ballots are procured from the county clerk and are carefully counted!

**14 Boys, Three Coaches, Given Basketball "J's"**

Reiving an old custom of Janesville High school basketball, "J's" were awarded to the three coaches Friday morning at the same time with those awarded to the members of the team and the student manager. The three thus honored were Floyd Reyner, Thomas MacDonald and Eddie S. Lamoreaux, who have been responsible for much of the success the past season.

The following boys, many of them Senior A's about to graduate in June, were awarded the "J": Leroy Dickenson, captain; Albert Meek, Dan McClosky, Willard McDermott, Kyle Seaman, John Austin, Clement Clark, Elvin Cranmer, Edward Dougherty, Kenneth Bick, Walton Lane, Rollin Gridley, Harold Conroy and Ronald Galbraith, who was student manager and won a "J" last year.

These boys won their letters by playing a certain number of minutes. Those who will be here to play basketball next season are Meek and Seaman.

Calls were given Friday morning by the three coaches and by Prim. George Bickford, who awarded the letters to the coaches. Mr. Reyner acted as chairman.

This was the first convocation held in several weeks. The ban placed on full convocations, when more than 800 pupils gather in one room, by the board of health, has been removed with the arrival of warmer weather and the decrease of illness. Speakers and singers have been appearing to only small audiences.

Bail.

BY ASSOCIATED PRESS  
New York.—Gen. Grigorie Semenoff, leader of Russian Cossacks, Friday awoke in one of this city's best hotels, instead of the Ludlow street jail, where it seemed for several hours Thursday night he would be the city's guest. He was arrested at the instance of the receiver of an American company trading in Russia, who thought it was in the pay of a judgment of \$475,000 entered against him in Harbin, Manchuria, last December.

Semenoff, whose favorite title is "Ataman of the Cossacks," was permitted to go to the Waldorf when friends secured \$25,000 bail.

Claims on which the judgment in the case was rendered alleged that Semenoff and his forces invaded in 1919 at Chita, stores belonging to the Yourovets home and Foreign

**Fatal Foot Disease  
Spreading in Britain**

The State Veterinarian of the Wisconsin Department of Agriculture issues a warning to the people of the state concerning the wide-spread infection of foot and mouth disease in Great Britain. According to last reports from the U. S. Bureau of Animal Industry, there were 966 herds slaughtered in Great Britain between January first and March 1st, totaling 43,732 head of cattle. The United States has been far more fortunate in escaping this plague. There is great danger that the virus may be brought over in clothing of immigrants, or on hay or straw used for the packing of crockery and other matter from foreign parts. All material for packing received from foreign ports should be promptly destroyed by burning.

The greatest danger, no doubt, is from foreign immigrant labor, and any one employing such labor should observe due care that all clothing is

duly fumigated before any such person is allowed to mingle with any cloven hooved animal. Any suspicious case, no matter in what part of the state, that is observed exhibiting a sore mouth, should be examined promptly by a veterinarian and all such cases should be isolated until it has been fully determined that the disease is not present.</p

### Outdoor Prison for First Offenders

By FREDERIC J. HASKIN

Washington.—Ever since selling liquor became illegal in the United States, prohibitionists and those holding the opposite view, have been more or less continuously engaged in hurling figures at each other to prove that crime has increased or decreased, according to which side has the floor, since the inauguration of the so-called dry area.

It may be that the figures mean little, if anything, so far as liquor is concerned. It is the general belief that until the sale of liquor really is stopped, figures for offenses like drunkenness and disorderly conduct, due to liquor, are not much of an indication of better or worse conduct of the public under the restrictions of the Volstead law.

Those who have made a study of criminology know there are many factors which enter into the cause of court convictions. For instance, every veteran policeman knows that still, hot nights mean an increase in fights and minor disorders.

This is explained simply by the fact that in congested sections of cities people are driven out of doors to seek some relief from the heat. Such a night will drive some men—and women, too, for that matter—into a state of mind comparable to a class room full of hysterical girls. But instead of taking out this feeling in nervous laughter, culminating in a flood of tears, general irresponsibility, leading to quarrels and fights, is the result.

These are minor offenses—misdemeanors. A general and great increase in crime cannot be put down to such simple causes. And, whatever the cause, there has been a big increase in the more serious offenses, dating from about the end of actual hostilities abroad.

Complete records for the whole country, showing offenses for which convictions have been secured, would require a great deal of time and far more space than is available. Any effort to trace down the causes of such a great number of convictions for real crimes is virtually an impossibility. Doubtless unemployment has something to do with it. The national "let down" from the stimulus and excitement of the war, particularly among younger men, may be a contributing factor. Whatever the causes are, it is a fact that the federal prisons throughout the country are practically full to capacity.

### A SEASON OF COMMUNITY MUSIC.

SUCCESS OF THE SEASON OF COMMUNITY MUSIC WHICH HAS BEEN A FEATURE OF THE WINTER WILL HAVE THE EFFECT TO STIMULATE A GREATER EFFORT FOR NEXT RIDE OUT FOR A PART OF THE WINTER AT LEAST WE SHALL SEASON. IF THE PLANS OF THE SCHOOL BOARD ARE CARVED HAVE THE SPLENDID HIGH SCHOOL AUDITORIUM AVAILABLE FOR CONCERTS. MORE THAN THE FEW CONCERTS BY THE MUSICAL ORGANIZATIONS OF THE CITY WE SHOULD HAVE A BAND CONCERT FREQUENTLY IN THE WINTER. WITH THE PRESENT BAND ORGANIZATION PREPARATION SHOULD BE MADE FOR THE SUMMER CONCERTS AND THESE TO BE KEPT UP ALL WINTER LONG.

TWO VERY ACCEPTABLE PRESENTATIONS OF ORATORIOS IN THE "MESSIAH" AND THE "STABAT MATER" HAVE SHOWN THAT JANESEVILLE NEED NOT BE LACKING IN FINE CHORUS WORK AND IT SHOULD BE POSSIBLE ANOTHER WINTER TO ADD A NUMBER OF VOICES TO THOSE IN THE ORGANIZATIONS THIS SEASON. MORE MUSIC AND MORE ENTERTAINMENT OF THIS NATURE WILL CERTAINLY BE ACCEPTABLE.

The most popular novel with the coal man is "If Winter Come."

### POLITICALIZING THE SUPREME COURT

WHEN IT IS UNDERSTOOD THAT THE COMPROMISE MR. EVJUE CANNOT WELL STOMACH THE APPOINTMENT OF C. H. CROWNHART TO THE SUPREME BENCH, SOMETHING OF THE NATURE OF THE DISASTER THAT HAS COME TO WISCONSIN MAY BE UNDERSTOOD. IT MAY BE RECALLED THAT A HEARING ON THE CASE OF HANS RODD, SHERIFF OF ONEIDA COUNTY, REMOVED FROM OFFICE BECAUSE HE OBEYED THE JUDGE AND NOT THE GOVERNOR HAS BEEN HELD AND SINCE THEN, SOME MONTHS, NO DECISION HAS BEEN RENDERED BY THE COURT. WITHOUT JUSTICE CROWNHART THERE ARE SIX MEMBERS OF THE BENCH. FOR SOME TIME THE STATE HAS BEEN WAITING THE DECISION IN THE RODD CASE. THE PUBLIC HAS A RIGHT TO KNOW IF THE INTEGRITY OF THE BENCH IS TO BE ATTACKED OR UPHELD. THERE HAS BEEN NO DECISION SO FAR AND IT HAS BEEN A MATTER OF COMMON KNOWLEDGE THAT THE BENCH HAS BEEN DIVIDED, THREE ON ONE SIDE AND THREE ON THE OTHER IN THE RODD CASE. WHAT THE PEOPLE HAVE A RIGHT TO ASK OF THE GOVERNOR IS AS TO WHETHER THE APPOINTMENT OF CROWNHART INSTEAD OF STEVENS HAS ANYTHING TO DO WITH THE FINAL DECISION IN THE RODD CASE. MR. CROWNHART WILL HAVE A VOICE IN THAT. IF THE COURT IS DEADLOCKED AS IT STOOD BEFORE CROWNHART'S APPOINTMENT, THE CASE MAY BE REARGUED OR THE NEW JUSTICE BE ALLOWED TO LOOK OVER THE PAPERS AND GIVE HIS DECISION ON ONE SIDE OR THE OTHER.

ONE OF THE BIG STEPS FORWARD IN TREATMENT OF CONVICTED OFFENDERS IN THE LAST FEW DECADES HAS BEEN TO GET AWAY FROM THE OLD IDEA OF FORBIDDING PRISON WALLS. AT CAMP GRANT IT IS NOT PLANNED TO HAVE ANYTHING LIKE THE ORDINARY PRISON. THIS WILL NOT BE ENTIRELY AN INNOVATION. FOR EXAMPLE, THE WORKSHOPS WHERE MINOR OFFENDERS, CONVICTED IN WASHINGTON POLICE COURTS, ARE SENT, IS A GREAT FARM. THE PRISONERS ARE GIVEN TASKS IN RUNNING THE BIG INSTITUTION WHICH KEEP THEM BUSY AND OUT OF DOORS. ONLY THOSE WHO TRY TO ESCAPE OR CONTINUALLY STIR UP TROUBLE ARE KEPT TO THEMSELVES.

THE METAL TRADES, HORSE SHOEING, CARPENTRY, BRICK LAYING, FARMING, CABINET MAKING AND EVERY OCCUPATION FOR WHICH INSTRUCTION IS DESIRED, WILL BE PROVIDED AT THIS OUTDOOR PRISON AT CAMP GRANT. IN ADDITION, THE MEN WHO DESIRE IT WILL RECEIVE GENERAL EDUCATION TO FIT THEM TO BE USEFUL MEMBERS OF SOCIETY INSTEAD OF PARASITES. EVERY EFFORT WILL BE MADE TO SHOW THESE MEN THAT CRIME AS A MEANS OF LIVELIHOOD, DOES NOT PAY IN DOLLARS AND CENTS, ANYTHING LIKE THE DIVIDENDS' HONEST WORK WILL PRODUCE.

CONGRESS WILL HAVE TO APPROVE THE PLAN, PARTICULARLY AS AN OUTLAY OF MONEY WILL BE NECESSARY. IT WILL BE SHOWN TO CONGRESS, THOUGH, THAT THE APPROPRIATION NECESSARY WILL NOT BE AS GREAT AS THE FUNDS WHICH WILL BE REQUIRED IF THE GOVERNMENT HAS TO BUILD ADDITIONAL FEDERAL PRISONS. THE ADMINISTRATION DOES NOT LOOK FOR ANY STRONG OPPOSITION.

A "LOOK UP THE LADDER WEEK" AND SEE WHAT IS AT THE TOP JUST AS GEORGE P. GOOD DID.

England notices that George is still doing it.

LLOYD GEORGE HAS PASSED THROUGH ANOTHER CRISIS. HE EATS 'EM ALIVE—THESE CRIMES. AND WHILE HE HAS BEEN GIVEN A GREAT VOTE OF CONFIDENCE IT MAY BE NOTED THAT HE IS FAR FROM OUT OF THE WOODS. THE NEXT STEP IS TO FIND WHAT PARTY HE WILL BACK IN THE COMING ELECTIONS. IT LOOKS AS THOUGH HE WOULD MAKE A NEW PARTY OF HIS OWN RATHER THAN TO ATTEMPT TO MAINTAIN THE COALITION ORGANIZATION WHICH HAS BEEN BALKY AT TIMES AND HARD ON THE DRIVER THE REST OF THE TRIP.

THE SUCCESS OF MARGOT ASQUITH HAS BEEN SO GREAT IN AMERICA THAT OTHER ENGLISH FREAKS WILL BE LOOKED FOR.

APPARENTLY ONE POLICEMAN IN JANESEVILLE KNEW WHERE TO GET MOONSHINE. HE MIGHT TELL THE CHIEF.

JAZZ, SAY THE SHEBOYGAN PRESS-TELEGRAM, WAS IMPORTED FROM THE SOUTH AMERICAN UNDERWORLD TO SWEEP AMERICA. IT HAS SWEEP A LOT OF PEOPLE BACK TO THAT UNDERWORLD SINCE.

BY EDGAR A. GUEST

THE WASTER.  
We used to wonder why God let him live, and  
why so many useful, better men must die.  
Lazy he was unto the last degree;  
If ever lived a waster, it was he.  
"Even the worm does something," Parson said,  
"But 'twould be better if that man were dead."

He broke his mother's heart, and sick with  
shame he was also bore his name.

"No good on earth!" on that we all agreed,  
And then one day he did one decent deed.

He who was worthless, drunken, wholly bad,  
Was saved in the lake and saved a drowning lad.

He only heard the little fellow cry.

He who had done no useful thing before,  
Battled the waves and brought the boy to shore.

Then went his way back to his life of sin,  
Until at last Death's bugle called him in.

The boy has grown to manhood and his name  
is now resplendent with the light of fame.

British, his blood, with gifts of learning stored,  
He holds high place, respected and adored;

In difficult and dangerous days like this,  
That boy is one—the world would safely miss.

The boy is one—the world would safely miss.

**WHAT HAS GONE BEFORE:** George Morton goes to work at the home of Planters, which means his father loses all his property—a severe business. George becomes a horse trainer and as a part of the job acts as groom to Sylvia Planters when she visits her father. Mr. Morton, who is driven from the place and seeks no education, goes to Princeton, meets Sally, a tutor, gets a place on the football team and George follows in his footsteps. Betty Allston is very kind to George, who at home meets her friend, Sylvia, which is embarrassing. George gets a success and in college secures a high social position. But Sylvia still flouts him, showing preference for a classmate who proves to be a scoundrel. Dixie, George's mother, goes to war. On his return he enters into business, finds Dalrymple is crooked. He and Lambert are shocked to find out that Dalrymple has moved to Sylvia's room. That afternoon George finds Sylvia and in a moment of contrition he takes her in his arms, who discovered by Dalrymple who demands money to pay off his wound. George is driven from the house and makes threats. Sylvia and George part and he returns to his old tutor, Sally, at Princeton.

(Continued from yesterday.)

"fancy you succeeded," Lambert muttered.

George stretched out his hand, looked at Lambert appealingly.

"She didn't say so—she—"

Lambert shook his head.

"She wouldn't talk about you at all."

He waited while the servant entered and arranged George's tray.

"Of course you're tired."

"After a fashion," Lambert answered.

"I'm hungry. You might give me a drink."

"I feel apologetic about eating," George said when they were alone again. "Don't see why I should have an appetite."

Lambert fingered his glass.

"Do you know why she didn't have drawn and quartered?"

"No. Don't try to create happiness, Lambert, where there may not be."

"I'm creating nothing. I'm asking a question, in an effort to understand why she won't, as I say, mention your name; why she can't bear to have it mentioned."

"If you were right, if things could be straightened out," George said, "you—you could put up with it."

"Easily," Lambert answered, "and I'll confess I couldn't if it were Corporal John Smith. I've been fond of you for a long time, George, and I owe you a great deal, but that doesn't figure. You're worthy even of Sylvia; but I don't say I'm right, you can't count on Sylvia. And even if I were, I don't see any way to straighten things out."

George turned to his meal.

"If you had taken the proper attitude," he decided, "you could have handled Dalrymple. He's weak, adventurous, cowardly."

"Oh, Dalrymple! I can handle him. It's Sylvia," Lambert said. "In the least run Dolly agreed to about everything. Of course he wanted money, and he'll have to have it; but heaven knows there's plenty of money. Trouble is, the wedding can't be hushed up. That's plain. It will be in every paper tomorrow. We ran that Dolly was to live in the house with him. They would have been together in public, and Dolly agreed eventually to let her go and get a quiet divorce—at a price. It sounds revolting, but to me it seemed the only way."

George became aware of an ugly and distorted intruder upon his hap-

## Dinner Stories

Gretchen, aged 12, was to be housekeeper while her mother spent the day at their fruit ranch a few miles down the valley.

Before leaving in the morning Mrs. Willis gave her happy-go-lucky daughter explicit instructions that when the plumber came she was to tell him it was the laundry faucet which needed fixing, "and anything else he wants to know," she added hurriedly.

The plumber came, and after telling

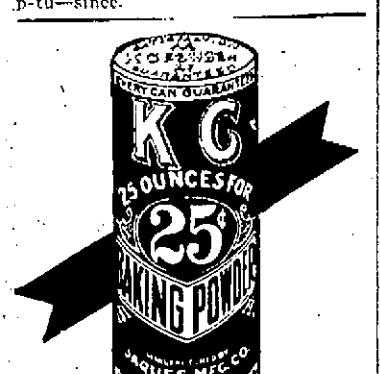

him where the repairs were needed and showing him to the basement, Gretchen went blithely about her work. For the time the noise of pipe pounding wrangled with the clatter of dishes, when upon discovering that he had failed to bring a full kit of tools, the man called up the cellar-way:

"Hey, there, kid! Got a monkey wrench anywhere 'round?"

After an instant of silence, in the direction of the kitchen, the girl stammered down: "Why—no, ours is a fruit ranch."

"Mum-mum-Mister Johnson," stammered young Sankoy Spink. "I want to marry your daughter, Zunilda. I'm not good enough for her but—"

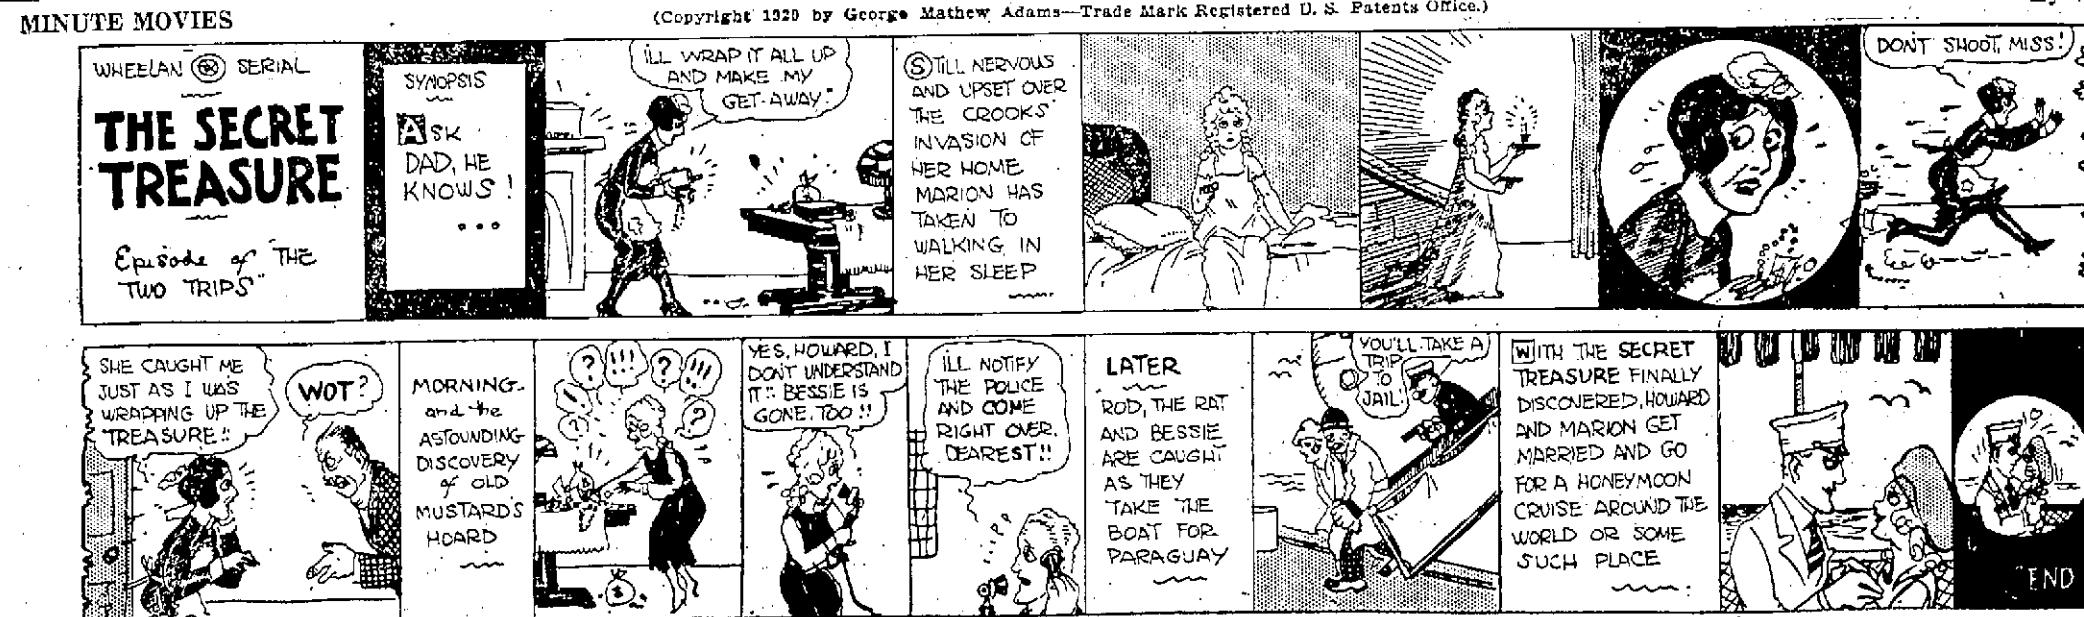

"You're dead safe in telling that to me," interrupted Gap Johnson of Rumpus Ridge, Ark., "but don't let her maw hear you say it. When I was courting the girl that is my present wife I told her mother that I wasn't good enough for her daughter, and dredged if she didn't believe me, and has been a-mentioning it ever-putu—since!"

and frighten him he might run into the dense jungles and get lost. So it was that she went to the great doctor of the jungles and told him that she wanted to have her little colt decorated so that she would not lose him. You know who the great doctor of the forest is? His name is Dr. Giraffe. Well, he made these stripes and put them on the little colt of my great, great, grandmother, and ever since that time the Horse Tiger has had stripes and that's why we are called Zebras."

Instantly he ran away toward the hills for he and his mate were afraid to be in the valley at drinking time.

To Be Continued.

Election Tuesday it was voted to install electric lights on the different corners in the village. This will be a great improvement.

## JUMP IN LIVESTOCK PRICES HAS EFFECT

Increased Returns on Farms Reflects Directly on All Business.

No single factor has been as responsible for improvement in business conditions recently as the general advance in farm products, an advance that is of greater significance than any other development, since the prices of farm products broke in the fall of 1920. It was the first burst of real sunshine and is in marked contrast to the artificial variety, something laboriously disseminated by an element advancing the theory that the self-same sun that使得 everybody should smile at one another. It has afforded a demonstration of the profound truth that the economic and the moral law are invariably in harmony and that it is sound policy to align business, afarly with them. Coincidently the element that has embraced the opportunity to propagate avaricious lies with the objective of getting his way in the legislative "tunnel" has become irrelevant.

Reference to the course of improvement events will be convincing that the turn of the road was reached about the middle of last December, when the hog market began its upward movement. Simultaneously a

## Pool Headquarters at Richmond, Va.

Richmond, Va., will be the headquarters for the tobacco pool formed by growers in Virginia, North and South Carolina. Oliver J. Sands, Richmond banker, has been placed in charge.

More than \$8,000 of the 100,000 growers have signed the pool contracts and the production from the three states amounts to approximately 400,000,000 pounds of bright and dark tobacco having an estimated value of \$100,000,000. The association will take over 120 warehouses.

The statement issued by the pool managers in part follows: "Tobacco men in the south have planted in faith, reaped in hopes and marketed by accident. We want to take the incident out of marketing and handle tobacco crop in such a manner that it is handled in a same way over a period of time, so as to prevent the 'ringing' of the crop at one time."

The directors and officers certain not only men who are successful growers but also bankers and city business interested in the prosperity of the growers in their district.

cultural Association, New York

Dairyman's League, and National

Dairy Union, participated in the

bill as requested by the representatives

of these organizations recently ap-

pearing before the Senate Finance

Committee which listened informa-

tively to the representatives of the farm-

ers.

The farmers had heard that the

sabotage in Washington had con-

vinced the members of the Finance

Committee that there should be lit-

er or no tariff on these commodities

and that the farmers' previous state-

ments to the committee had not been

sufficiently strong to impress them

with the need for protecting the

country, horses, bean, corn, and cotton

seeds from competition with veg-

etable oils produced in foreign coun-

tries where labor and the standard

of living is far below that of the

American farmer.

Although the fat cattle market has

not participated in the pyrotechnical

display made by swine, an unexpected

advance has been registered by every

head of the cattle species in the

country. Breeding cows have ad-

vanced all over the west from \$10 to

\$30 per head, arresting liquidation of

breeding herds and establishing a lo-

cal market, thus conserving the in-

dustry at a critical time. In reckoning

the total appreciation in live stock

value all this must be taken into

consideration.

In the case of sheep the advance

has been more substantial than in

hogs, but the actual money has

gone to comparatively few producers,

winter feeders who laid in lambs last

fall, but the effect has been almost

martial. Not only have feeders more

than recouped last year's losses in

many instances, but the value of the

entire sheep population in the country

has been vastly increased.

Sheep producers are getting in-

to the gilligan class and lions agree-

ing millions, that could not have

been liquidated a few months ago

without entailing ruin on borrowers,

now considered good by bankers.

Live stock, buttressed by the com-

petitive market system, has performed

admirably in an emergency that threatened the solvency of agricultur-

# VARIETY OF CASES FOR POLICEWOMAN

How to Make Husbands Stay Home Nights. Her Latest Problem.

The city policewoman handles a variety of cases, ranging all the way from the unruly children who won't do this and won't do that, to the husbands who stay out too late at night.

Following action by the council in ordering the police and fire commission to make a permanent appointment of a policewoman, Judge H. L. Maxfield is preparing to recommend the names of three candidates to the commission. The statutes vest the power of selection with the commission, the municipal court judge is required to recent legislation to make three recommendations, and no woman not selected by him as one of the three can be appointed.

Council Given Data

City councilmen were given a cleaver conception of the work of a policewoman in a complete report for March presented by Miss Margaret Kavanagh, policewoman since last July.

Her March report shows 81 calls and other work as follows: New cases, 5; old cases, 10; 11 visits; letters sent concerning work, 8; calls concerning work, 8; office calls, 10; notices served, 2; visits to movies, 5; visits to dance halls, 2; visits to skating rink, 10; visits to railroad stations, 10.

Many Different Cases

The 81 calls pertained to some of these cases:

Two boys referred to policewoman by district attorney—one now in school, the other to be committed.

One woman, vagrant taken to county house.

Claim of young mother's parents to care for granddaughter reported as result of neglect.

Unlawful relations of man and girl.

One girl, reported keeping late hours and doubtful company, now doing better.

Two girls given another chance after brought into court for causing disorder in public places.

Complaints of two women concerning husbands—late hours and absence from home.

Four visits were made in company with the city nurse and assistance was given to a woman during the birth of a child by the policewoman. She obtained assistance for families in need. Frequent patrol of the streets, afternoons and evenings, is made by her.

# NEED MORE MONEY FOR MILTON ATHLETICS

Milton—About \$600 is still needed to complete the yearly quota of \$2,000 for maintaining the new department of physical education at Milton college. The alumni board of control announced Wednesday. About \$1,400 has been contributed so far by alumnus and friends. The alumni board consists of J. N. Dole, W. D. Buckley, A. E. Gary, P. L. Coon and George Thorngate.

Classes in baseball, basketball, football, personal hygiene and allied subjects for prospective athletic coaches are included in the scope of the department of physical education. Two years of gymnasium work are required of candidates for a degree, and all students physically capable are urged to participate in some form of competitive athletics.

# NET SALES BIG YOUNG AND OLD GIRLS WEAR 'EM

Hair nets are the answer to the twentieth century maiden's prayer, the balm to all womankind. If you don't believe it ask any dealer in the city how many nets he sells a year, yes, even a day. Automatically, he throws his hands up in sheer despair at such a colossal question. Thousands, thousands, he says, all makes, all colors, all sizes. Why even the ward grocer has recognized that no home can run without hair nets. He supplies the neighborhood in the same wily manner that all goods are sold—that of suggestion, and a box of nets grins the most prominent place on his showcase.

Meet the half Net family, all nice girls, too. There's Dorothy, Jewel, Lorraline, Universal, Janetta, Luck, Just Rite, Venida, Populite, Carmen, Laura, Vanite, Regal, Aristi and scores of others, just sub debs who are coming into their own as the season flourishes. Venida is the stately, arrogant sister, who announces brazenly that she "rules the waves." Laura has pretensions of being duchess, and Dorothy is a real beauty for a debutante nowadays. All the other sisters lay claim to such virtues as have to do with fine workmanship, invisibility and sanitation.

More nets are being sold every day dealers tell us but dark brown is the most popular color. The call for more gray nets than in former years seems to indicate that the older women, too, have succumbed to the charms of this tiny hair protector. Taste in nets is almost as varied as in any other field, and there are applied with results that cap shaped, fringe, double mesh and extra large size in every shade of human hair is in demand. All net makers profess that their article outwears all others, is made of real human hair or else of pure silk. In their effort to ensnare the women.

Wasn't it just a few years ago, before the renascence, that we pinned our hats securely on, tied veils over these, a band around our hair and to the devil our pretensions? Is this to come again to the dresses while motorizing? With what result? Monterey bridge hasn't reached before we looked like Medusa of the snaky locks. Have you noticed boys, that the girls never say, "I just washed my hair" and I can't do anything with it?" Of course not, that's because Venida rules the waves.

## BRIEFS BY WIRE

Washington—The employment service of the department of labor reported employment increases ranging up to 25 per cent over the previous month from 43 to 56 representative cities for the month ending March 1. # Dickerson and McCluskey Led Scoring of Blue Basketeers

Copyright 1920 by Geo. McManus

**TEAM BROKE EVEN,  
WON 9 AND LOST 9;  
MADE 292 POINTS**

"Danny" McCluskey stands out with Dickerson as the individual scoring star of the Janesville high school basketball team during the season recently closed. While Dickerson piled up the largest number of points, having a total of 59 against 58 for McCluskey, the latter dumped 25 field goals through the loop.

Dickerson's great counting came in free throws, at which he outdistanced every other man on the team. He pushed 23 into the net as against nine for Bliek, his nearest competitor in that department of the springing field. Dickerson rung up 18 field goals, the same number made by Bliek.

**Giddy All Around Star**

The second largest number of field goals was made by Gidley, all around star of the season who, upon his graduation became a member of the regular squad of Milton college. "Grid" was good for 16 goals with 26 points made by 12 field baskets and two free throws. But this good work was discounted by the number of fouls he committed. He was guilty of 17 personal and 10 technical fouls. His nearest competitor in that line was McCluskey, who had a total of 25. Likewise spoiling his high scoring mark, "Mac" made 13 personal and 12 technicals.

Though he did not start the season until late as a regular member of the team, Johnny Austin shined as sixth high man in the race for the Blues. His total was 26, of which 16 came from field goals and four from free throws.

**Broke Even on Wins**

The high school had a peculiar season. For the first half, they went through with flying colors, winning the seven straight. Then three of the regulars graduated, leaving the aggregation a crippled crew. Of the 18 combatants, still in the institution had an even break, winning nine and losing the other number. Two of these games were played in the Whitewater district tournament.

Janesville piled up 292 points to 259 by the opponents. Of these, 246 came from field goals and 45 by the free throw route.

# STRANGE BIRDS ARE SEEN IN CITY

Flocks, Flying by Night, Are Juncoes, Bird Experts Say.

Flocks of strange birds which fly by night, many of them killing themselves by bumping into wires and buildings as a result, have been seen in Janesville the past few nights and the bodies of several have been picked up on the streets, especially in the downtown section.

The birds look somewhat like sparrows, although they are not as fat, and have white breasts.

They have been noticed especially by night police patrolmen after midnight and before daylight, although the policemen are not prepared to say whether they are "dodo" birds, wrench or cuckoos.

Like many other birds that fly by night they are attracted by the bright lights of Janesville's white way, and flatten their beaks against attractive store windows.

Inquiry among those familiar with birds shows that the strange ones seen here are known as the junco, or slate-colored snow bird, a member of the finch family. They just far enough south to be with the snow and yet avoiding zero weather. In the spring they follow winter north until by summer they are in the arctic regions.

The junco has a slate-colored back. The top of the head and the breast are nearly black while underneath it is white having several white feathers in the tail which are very noticeable in flight.

Many other birds have been seen here this spring among which are woodpeckers, sparrows and in one case a woodcock, a bird rarely seen and one which perhaps will be extinct within a few years.

## WISCONSIN TOBACCO MARKET

Editorial—The Wisconsin Tobacco Reporter Friday says:

"The warehouses are all busy handling old longs and will continue in activity during the present month. The stemmers have enough to keep them going throughout the summer."

The movement of tobacco from first hand has been tamed down somewhat during the past week, due to the bad condition of the roads. While the main highways are negotiated easily enough, the side roads make their worst just now, and the buyers hesitate to make the attempt.

"Several hundred acres were bought a week ago throughout the state under the Laramie company leading the same in point of acreage taken in the southern section, most of it bought for assorting purposes. At the same time considerable grain was picked up in all sections. The market has showed no variation in the prices paid during the past weeks. The run is from 6 to 10 cents per pound.

The formation and incorporation of a marketing pool for Wisconsin is the topic now discussed. If 75 per cent of the total Wisconsin tobacco acreage will sign up on May 1st, the pool will become effective this year; if not, it will go over for another year. It is the hope that the acreage limit may have been signed off for 1923. The marketing department of the state is very active in lending its support to the movement, and has assured the growers of full cooperation in every way and federal to swing the big undertaking. To what extent the warehousing and handling—approximately 10,000,000 pounds of tobacco during the year to be done, no one has not been definitely arranged. The warehouse space available in the state at the present time is somewhat of a problem with the tobacco now coming in, and the question is, if it does not begin to move, it will increase the space difficulty for next year. But the marketing department has undoubtedly planned to cope with this matter.

# "YW" IS POPULAR AS GIRLS' CENTER

Practical Studies, Sports and Gym, Social Life Filling Big Need.

The striking progress of the local Young Women's Christian association and the extent of its benefit to the young women of Janesville in the short time since headquarters were opened in June, 1921, probably are unknown to the average person unless an actual visit has been made to the attractive rooms in the Gazette building, East Milwaukee street.

A visit reveals 20 to 100 girls using the rooms nightly. Some of these are still in grade school; some are married women enjoying the recreation and instruction afforded by the Y. W. C. A.

## Five Night Classes.

Evening classes are now being conducted in better English, basketry, spring dressmaking, millinery and artcraft. The artcraft class in subdivision includes groups making silk lampshades, parchment shades and embroidery. To effect proper individual instruction, not more than 12 or 15 girls are permitted in any class, new groups being organized when more desire to join.

Physical education and sports have secured enthusiastic support from local girls. A snappy basketball team has defeated Milton girls' teams twice and Beloit girls once. Their one game to Rockford and one to the championship team at Janesville High school, and the game will be played Friday night with Rockford.

Volley ball and bowling have become increasingly popular with the "YW" girls during the winter months, the former being played in the gymnasium which is one of the organization's biggest assets, the latter on the upper floor of one of the local bowling places.

## Plan Big Summer.

Four classes in regular gymnasium work are being conducted on Wednesday and Friday afternoons for older women and on Thursday and Friday nights for younger women.

With the approach of summer, provisions are being made for hiking clubs, camp craft, baseball and swimming. Some of these activities were carried out last year but more elaborate plans are under way for the coming season. The new athletic field along Rock river near South Third street will be the center for outdoor sports.

The well-equipped kitchenette and charmingly furnished rooms make excellent provision for entertaining. Not a day passes without some girl using the privilege. Many groups from factories and offices hold frequent informal parties, while girls remaining downtown over the noon hour prepare their lunches there.

## Girl Reserves Do Big Work.

Perhaps no part of the Y. W. C. A. organization has proved more beneficial in promoting the mental, spiritual and physical welfare of its members than the Girl Reserve clubs made up of girls of grade and high school age. Two clubs have been organized among high school girls, one of upper classmen and the other of freshmen. In addition there is an AA division and groups in the Allentown, Jefferson and Lincoln schools, and the state school for the blind, Washington and Green schools have a joint club.

During the present Lenten season, a Girl Reserve bible class meets each Wednesday at 5:30 p. m. for supper followed by study and discussion.

## Twenty-Four British Women May Now Sit in House of Lords

Lady Rhonda (central figure), who has been granted the right to sit in the house of lords, and five of the 23 other women who can claim a similar right. Above, left to right, are: Baroness Furnival, the Duchess of Norfolk (at right of Lady Rhonda), Countess of Cromartie. Below, Lady Clifton (left) and Princess Arthur of Connaught, right.

As a result of the successful effort of Lady Rhonda to obtain the right to sit on the British house of lords, 23 other peeresses in their own right may now apply for a similar privilege, and it may be that several or all of these may sit in the upper house of the empire. The other peeresses are: Baroness Lucas of Criddell and Dingwall; Baroness Farnham, Countess of Loudon, Countess Viscountess St. Davids, Baroness Wentworth, Baroness Strathcona and Mount Royal, Baroness Wolsey, Baroness Zouche, Duchess of York (Princess Arthur of Connaught), Duchess of Norfolk, Countess of Seaford, Baroness Beaumont, Baroness Berkley, Countess of Cromartie, Baroness Burton, Baroness Clifton, Baroness Darnley, Baroness Gray, Baroness De Ros, Baroness Grey, Baroness De Ros.

amounted to \$33,397,000, explaining however, that "the reduction in deposits cannot be considered as alarming, as it is largely due to the use of funds in the industries of the state. Undoubtedly several million dollars has been invested outside of the state in the numerous speculative stocks, bonds and other investments which are being so freely offered by solicitors and through the mails."

Savings account balances were reported at \$10,634,000, a falling off of \$3,428,000. Under resources, loans and discounts were increased \$4,284,000, and investments in government bonds, \$1,768,000. Investment in other bonds increased \$815,000.

No banks either state or national were closed during the period from December 31, 1921 to March 16, 1922, Mr. Cousins reported.

Compared to a year ago he said that the falling off in deposits had

## FILE ATTACHMENT WRIT IN MADISON

Bankers Act to Have Sheriff Hold Property of Bond Company.

MADISON.—A writ of attachment against the Madison Bond company of which Victor H. Arnold is president commanding the sheriff of Dane county to hold property of the company until demands of creditors are satisfied, was filed in Dane county circuit court today by R. L. Hopkins and A. O. Faunack, officials of two local banks.

Already an involuntary petition in bankruptcy has been filed in United States district court against the Madison Bond company and John S. Allen, former member of the Wisconsin railroad commission appointed receiver. Hearing will be heard on this petition in court April 18, unless affairs of the company are arranged out side of court before that time.

Mr. Arnold said that he was in communication with Attorney General Harry Daugherty, in an effort to have warrants charging criminal companies sworn out against Marshalls, Cousins, commissioner of banking for Wisconsin and members of the committee he appointed to investigate affairs of the company.

The poor of Madison were treated to a \$20,000 Christmas by Mr. Arnold last December when he gave orders to Madison merchants that they should provide persons applying with two tons of coal and whatever food they wished to purchase. Thousands of persons took advantage of his offer.

HANDY BIBLE FOR BLIND.

New York.—The American Bible Society announces it will bring out a "small handy volume" of scripture selections for the blind. The pages are 7 by 13 inches and the volume

will weigh about a pound. A complete bible prepared in the embossed system used for the blind, weighs about 150 pounds and comes in from 11 to 55 volumes.

## CAMERA MAN SNEAKS PAST SWISS GUARD TO SEE CORONATION

Rome.—The hard and fast rule of Cardinal Gaspari, inflexibly enforced by the Swiss Guards, that no photographer were to be allowed inside of Saint Peter's on the day of the coronation of Pope Pius XI, was broken at last. The staff photographer of an English newspaper, wearing a top hat and bearing a beautiful leather valise, presented himself at the Bronze Gates when the crush was at its height.

"No cameras allowed in," the huge Swiss Guard informed him, in a tone of finality.

"Camera, nothing," responded the photographer haughtily, "this is a medicine case. Please let me pass."

that I may render aid to the injured inside."

"Pass right in, doctor," the Swiss Guard said, humbly.

## SILICIAN PRIEST "POWER BEHIND" IN POLITICAL CRISIS

London.—The man behind the scenes in the Italian political crisis is a Sicilian priest, Don Luigi Sturzo, 37 years old.

He is the founder of the "popular party, which was responsible for proportional representation in Italy—in form of election which gained the party 100 seats in the chamber of deputies in the last election.

He leads the party without a seat in parliament, says the Central News. He had three representatives in the cabinet.

The high-spirited members of parliament obey his dictates faithfully and he has the power to make or unmake governments. He never appears on the public platform but is the man who pulls the strings.

## Psycho-Analyst Will Strive to Cure "Dual Personality" Girl

BROOKTON, Mass.—Mrs. Winifred Webster Hawlow, psycho-analyst, has undertaken to cure Claire Beauchaire, 18, of the strange dual or mental affliction which has divided her two distinct personalities—one that of a normal girl of 18, the other that of a babbling girl of five. Miss Beauchaire's case has puzzled scientists and medical authorities for months.

The mysterious "dual personality" of Miss Beauchaire has been analyzed by a noted specialist in mental and nervous diseases. He is Dr. H. P. Jefferson of the city.

The girl, he found, is physically normal. Without apparent reason she reverts, at times, to the mental con-

dition of a child of five, babbling and running aimlessly about.

Dr. Jefferson closely questioned her parents and her brother concerning her home life and particularly her recent experience with a young admirer who, she asserts, is responsible for her condition, because of a mystic influence he is said to have placed on her.

Here is Dr. Jefferson's scientific explanation of the causes back of the girl's case and the method by which a cure may be effected:

"On going to Brookton, I found Miss Beauchaire to be a well-developed, well-nourished and apparently perfect type of young womanhood.

"When I entered her home she was lying on her bed dozing, but not sound asleep. Her heart action was calm and normal. There was a natural bloom of health on her cheeks. Her pulse was regular and her skin normally sensitive to touch.

"I asked her if she did not wish to

return to her home where she was em-

ployed.

"The third is the effect on her per-

sonal temperament of the per-

sistent attentions of her unwelcome

suitors, who followed her from place

to place.

"I do not think that he has any

hypnotic or other influence on her.

In the badly ventilated factory she

first began to grow chronically

sleepy; a natural result of breathing

carbonic acid gas during working

hours.

"The sleeping condition persisted

after she left the factory and re-

turned home, because the poisonous

effect of the gas upon the nervous

and mental system had become too great

to be lost immediately.

"Later she was taken to Leconia,

N. H., to recuperate, and there the

good, fresh air and outdoor life en-

abled her to throw off these poisonous

effects. Her sleepiness disappeared

and did not return for some time.

"Now comes the third and final fac-

JEWS TO OBSERVE

PASSOVER, EIGHT

DAYS, APRIL 12-20

The feast of unleavened bread otherwise known as the Passover begins this year at sundown next Wednesday and will be observed by all Orthodox Jews in Janesville and throughout the world for eight days.

During the festive period, all Jew-

ish families abstain from eating

leaven in any form and in its place

use matzos. The festival ends on

April 19. The first and last days are

holy days and regular services are

held in synagogues.

The evening preceding the first day is particularly important and is known as the "Seder night." The purpose is to unite members of the household and friends, about the table and relate the stories and perform rituals as compiled in the "Haggadah." This book enumerates the chief events in the exodus of the children of Israel from Egypt and contains quaint folk songs and stories. It tends to唤起 the memory of the hardships endured in the arduous days from which the people of Israel were delivered with a strong hand and outstretched arm.

Passover, which was originally called by a different name, was in remote times celebrated as a spring agricultural festival. At an early date it became associated with historical events and out of that came the holiday celebrated by the present generation.

The festival of "Pessach" is also used as a means of consecrating the Jewish people to God. As the passover feast is keyed to this dominant thought of liberty and redemption from oppression and bigotry, the Seder celebration usually radiates an exuberant spirit of thankfulness and joy.

Symbols of the festival, the ceremony of the Jewish people from Egypt, badges include the unleavened bread reminding us of the only food the Jews had to eat in their hundred nights from Egypt and bitter herbs reminding us of the treatment to which the Jewish people were subjects while in slavery.

Janesville having no synagogue the festivities will be celebrated in Jewish homes.

## BEAUTY CHATS by Edna Kent Forbes

### CLIPPING THE HAIR

The condition of the hair, its lustre and thickness, and the richness of its color is largely a matter of physical health, yet no hair that is not properly cared for can be beautiful.

The hair must be shampooed carefully about once in three weeks and thoroughly washed every now and then with any sort of soap. The hair must be carefully and gently brushed, and the brush should never be brought down hard upon the scalp. The ends of the hair must be clipped frequently so as to encourage the growth of new hairs so as to avoid split ends.

**Sutured Shock**

"In return he is said to have slapped her on the cheek."

"The shock of this, coming as the climax of a period of nerve tension had its telling effect, since on her mental and nervous system."

"He almost always gave her no reason, however she went to avoid him."

"She went to Bridgewater. He followed and annoyed her. All this merely served to distract him in her mind in a fearful, ogrelike being and gradually led to her belief that he had placed her under a mystic spell."

"Claire Beauchaire is, therefore, suffering from a psychic or mental and nervous disorder. Physically she is normal."

"A cure may only be effected, not by medical or physical, but by proper educational influences which will replace the bad impressions now ac-

it is not too often to slip the hair once every six weeks.

**Dark Eyes**—Your experience is unusual but if you feel well there is no need for anxiety. Jet black hair that is changing to red could mean a chemical change in the system, possibly an excessive amount of iron.

As black is your natural color, this change will likely be temporary.

At 17 there is often this sensitivity about parts of the body being overdeveloped, but it is not as serious as it appears to you.

**Scrophulopha**—If you send me a stamped addressed envelope I shall be glad to mail you a formula for your hair to make it try crimping while it keeps heated. Do this the night before the regular shampoo.

### Listen, World!

By ELSIE ROBINSON.

If we said all the smartly things outside that we tell the folks at home we say what World Powers we'd be!

I know, because I'm one of those that say they say 'em. I'm supposed to discuss Human Robbies in this column and it's always an easy job to when it comes to predicting robes. I begin to hang around myself at white, take a few notes, and then sit down and write a "Listen, World!" So that's why I claim I'm an authority on the subject of the smartly things we said we said!

Now frinstance, there's that time you told the wife all about the way you told the boss where he could head

"And says I to him, if you don't like my work you know where you can get off for I ain't no man's slave and I guess you forget this in America, so that's all there is to it and you can take it or leave it." And all the time you were telling her your chest was swelling and your nose kept getting red from inspirational effort an' you felt like your eye, she covered before the fire in the recesses of your heart you knew perfectly well that all you'd done was to sic your cat on her cat. But cats don't tell.

And then there are those scintillating bits of repertoire, and the after-dinner speeches and confidential talks with your soul-gripping power—on Saturday night, when you're all made 'em 24 hours after the event. But who cares? We're bluffing, and everyone else is bluffing too—so long as the girls hold out, we should worry!

## BILLY WHISKERS

by FRANCES TREGO MONTGOMERY

"You see," said Bettina, after she had told Stubby and Button that she wanted to accompany them. "I met Nannie, his wife, and Billy Junior, his son, when we were in the circus and I should like nothing better than to renew their acquaintance and accept their long-standing invitation to visit them whenever they could, wherever they were. I used to be in a beautiful goat—the most beautiful! I have ever seen, and I have seen many. My master is away for a couple of weeks, and we are supposed to be turned loose in the pasture, so the turned man will never miss me. When do you start?"

"Now! This very minute if you are ready," said Stubby.  
"Isn't it fun not to have to carry satchels, look after baggage and buy tickets?" said Button.

"Yes," answered Bettina. "And get all tired out dressmaking, packing and fussing before one starts. My hair brush is as good as a limited bush by the roadside I can walk under and again rub the dust out of my hair after my morning roll in the sand. This roll is just as good and as cleansing as a lady's dry shampoo."

"As for me," said Button, "I always carry my wash basin with me—my mouth and tongue. So does Stubby, for that matter, and we both occasionally take a sand bath and roll in the grass to brush ourselves off."

"Listen!" said Stubby. "I thought

away through the field ran the three in the direction of the woods that Billy was seen to enter by moonlight the night before.

#### SPECIAL PRIZE

10 quarts of Brick Ice Cream for person sending largest number of coupons taken from our Mystery Brick

—Joe A. Steiner, Janesville, Wis.

We tried to make this contest as easy as possible by using our regular brick flavors, but judging from the few correct answers received our friends, no doubt, thought we were using special flavors.

#### SHURTLEFF'S ICE CREAM CO.

Black and white when combined by an artist is always captivating. Here black and white cross barred material is made into a jaunty suit for trotter wear. Lapels faced with white flannel and a white leather belt add an unusual feature. Patch pockets made on the diagonal of the material add a trimming touch.

## MARKETS

PHONE MARKET SERVICE  
FOR FARMERS.

Farmers generally interested in market news are invited to use the Gazette's service. Quotations received by the Gazette will be telephoned to any inquirer. It may be to the advantage of the farmer before making a sale, to have the market for the current day. Markets are coming over the wires at all hours. Do so, we will be pleased to have inquiries. Call for editorial room.

of realizing sales falling 2% points.

Chardier, General Electric, Mexican Petroleum and United Fruit also reported some point in demand for market expansion during the year. Reading and Norfolk and Western risings 1 to 2% points to new high prices for the year. Canadian Pacific, Illinois and Atlantic also strengthened. Gulf States featured the independent steels, rising 5% points, and Illinois and Great Northern, Oregon and Northern Pacific, the last two, also made some gains. The railroads' track tractions continued to reflect the more favorable situation, and interborough Rapid Transit raised 8% per cent.

There was no letup to the broad dealings of the preceding sessions of the market in the opening of April. The price of stocks and the trend of prices again was upward. The notable exception was the Allied Chemical, which made an initial decision of 14% points to new high prices. Another factor which tended to make offerings light was uncertainty over the government crop report due to the fact that the figures varied from unchanged to as high as 10%. May 1, 1922, followed by an advance around to well above Thursday's high.

Further offers of wheat shipments from Omaha to Chicago, together with additional sales of wheat to go to the east, helped to market some wheat. After opening unchanged to higher, July 12% to 12%, secured slight general gains.

(Closed) May 1, 1922, first 44 \$9.04; second 4% \$9.06; third 4% \$9.05; fourth 4% \$9.04; fifth 4% \$9.04; Victory 4% \$9.04.

## GRAIN

Chicago Review.

Chicago—Moderate upturns early in the month were reflected in comparative strength of most of the grain markets in the northern Wisconsin region of the state.

After recent heavy liquidating sales and the market's subsequent recovery, latest developments in the grain market situation resulted in a gain of 4% points for Manhattan Elevated and 2% for Interborough Consolidated.

Gulf States Steel increased its rate of 14% to 15% points to new high prices from May 1, 1922, buying of Mexican Petrified, Crucible, Shadings, and the local utilities at gains of 1 to 2% points. The close was strong.

Liberity Bonds.

New York—At noon, May 1, 1922, first 4% \$9.20; second 4% \$9.06; third 4% \$9.40; fourth 4% \$9.16; fifth 4% \$9.24; Victory 4% \$9.24.

Com sympathy with the action of the market, after opening unchanged to higher, July 12% to 12%, secured slight general gains.

(Closed) May 1, 1922, first 44 \$9.04; second 4% \$9.06; third 4% \$9.05; fourth 4% \$9.04; fifth 4% \$9.04; Victory 4% \$9.04.

# CRONIN CUTS PRICE OF MILK TO 8¢ A QUART

The First to Drop.

The Last to Raise.

## Mothers, Cut Down the High Cost of Living

by giving your children good bread and milk. The best bread in the country is baked by Janesville bakers—the best milk is Cronin's. A combination of the two is the best body-building lunch you could give your children.

All of our wagons have been adding 25 to 30 new accounts monthly. We added one new route two months ago which started selling 100 quarts daily, and are now delivering 200 quarts daily. WHY? People realize that we have the best.

## Help the Farmer!

He does not get too much for his milk.  
Use more Milk, Butter and Eggs.

## Sanitation is Paramount at the Cronin Plant

Before we buy a farmer's milk we make a careful inspection of his barn and milk house. If these are not up to standard we do not buy his milk. We pay highest prices.

Our bottles are steam sterilized for 15 minutes—the only plant in the city using a steam sterilizer.

**CRONIN'S DAIRY** has been selling milk in Janesville for 32 years, and the volume of milk sales increases each year. Proof of quality, service and satisfied customers.

Boost for all Janesville products. Always ask for CRONIN'S MILK and GUERNSEY ICE CREAM when in town. Don't forget, when you are 100 miles from home, to ask for CRONIN'S MILK AND GUERNSEY ICE CREAM, and get the best. Let the whole world know.

Effective  
Saturday  
April 8th

## — NEW PRICES —

CRONIN'S GUERNSEY MILK, 8c QUART, 5c PINT.

WHIPPING CREAM, 15c  $\frac{1}{2}$ -PINT, 10c  $\frac{1}{4}$ -PINT

All last year we sold whipping cream for 18c,  $\frac{1}{2}$ -pint, while others sold it for 25c  $\frac{1}{2}$ -pint.

Madison and other neighboring cities sell milk for 8c a quart. It can be done in Janesville and WE ARE GOING TO DO IT!

Wagons in other cities sell 400 quarts a day. When all of Cronin's wagons are able to sell 300 quarts a day each, we will put the price of milk down one cent or more per quart below this present low price.

## WE ARE OUT TO MAKE OR BREAK

The proportionately larger price of milk at 5c per pint is due to the fact that two operations are necessary instead of one in filling, sterilizing, capping, and the breakage is greater.

## Next Week is Inspection Week at the Cronin Plant

FREE ESKIMO PIES will be given to every person, young or old, who visits this big, modern institution next week. Before you give your milk or ice cream order, we invite you to come and see the up-to-date, sanitary methods we are using.

## Here's a Sample of Remarks Made by One of Our Narrow Minded Competitors

"Has your wife ever visited the Cronin plant? No, I thought not. If she had she would not want any more milk from there." But he was talking to the wrong man, who replied: "She doesn't need to go down there; for I have visited the plant several times and I think it is the most sanitary plant in the city."

It makes no difference whether you come in the morning or the afternoon—our doors are always open to you.

## There is No Sign on Our Door Which Says, "KEEP OUT"

## Don't Knock, for Knockers Always Lose

## LARGER ESKIMO PIE

From now on our Eskimo Pies will be made larger than previously and will be filled with our delicious New York Special Ice Cream, covered with a delicious coating of pure milk chocolate.

## CRONIN'S GUERNSEY ICE CREAM

We sell our Cronin's Guernsey Ice Cream to all dealers; we draw no line or limit in the City of Janesville—but we allow only one dealer in each of the cities and towns surrounding Janesville.

All of our dealers have pledged themselves to keep Cronin's Guernsey Ice Cream in good condition.

WE ARE CUTTING THE PRICE TO OUR DEALERS, AND THIS MEANS THAT THE PRICE WILL BE LOWER TO THE CONSUMERS.

Cronin dealers can be identified by the yellow signs which they prominently display bearing the words: "Cronin's Guernsey Ice Cream."

Visit the other ice cream plants in Janesville and in other cities and compare them with Cronin's. You will easily see that Cronin's is far in the lead.

People often think there is a difference between bulk or brick ice cream, but there is no difference in the quality of Cronin's. Both are quality products in every sense of the word.

We feature for this week end special—Plain New York Ice Cream. Our dealers will have it in bulk or brick.

Always ask for Cronin's Guernsey Ice Cream and get the best.
